The breath of a chronic catarrh patient is often so offensive that he cannot go into so-ciety, and he becomes an object of disgust. After a time ulceration sets in, the spongy rones are attacked, and frequently, entirely destroyed. A constant source of discomfort is the dripping of the purnious secretions into the threat, sometimes producing invetorate broughtlis, which in its turn has been the ex-citing cause of pulmonary disease. The bril-liant results which have attended its use for years past properly designate Ely's Cream Haim as by fur the best, if not the only real cure for hay fever, rose cold, and extern.

Two married men residing on Tenth street are rejoicing over the close of Jeannie Winston's engagement. Thoir respective wives were infatuated with Jeannie, and all summer they spent a large part of their market money on opera tickets. They feasted their eyes and cars while their husbands facted. They put their families on a diet of shavings, and fairly reveled in opera. Nightly these ladies sathere, and when Jeannie was especially hewisching they would shake hands and murmur, "More shavings!" When Jeannie sangher sweetest, that meant no chops for breakfast; when she posed with charming grace, the green corn went, and her bright smile made lines beans an unheard of Rusury. The unfortunate husbands are reduced to skeletons in chasquence, and the announcement of Miss Winston's departure has fairly made their mouths water. 'A Hungry Voice Beneath My Vest."

The Yield Comes Up to the Average-The Prospects for Corn Improved. The report of the department of agricul-ture for October gives local estimates of yield per sere of small grains, with condition of corn, potatoes, and other late crops.

The results corroborate the previous returns of wheat, confirming expectations of slight increase from the first records of threshing, without mating any very material addition to the crop aggregate. The average yield upon an area of fully 37,000,000 scress appears to be close to 121 bushels per acre, making the crop an average of a series of years. The area actually barvested is now the principal object of exact determination. The result will vary little from an increase of 100,000,000 bushels over the crop of last year. The state averages of principal states are: New York, 17 bushols; Pennsylvania, 13; Kentucky, 115; Ohio, 15.7; Michigau, 16.3; Indiana, 15.1; Illinois, 13.1; Wisconsin, 12.3; Minnesota, 12.6; Iowa, 12.5; Missouri, 12.5; California, 11.5; Oregon, 12.5.

The average yield per acre of oats is 25.6 bushels, making a crop of over 600,000,000 bushels, making a crop of over 600,000,000 bushels, making a crop of over 600,000,000 bushels, The Obio valley averages over 30 bushels per acre, lows over 35 bushels, with lower yields in Missouri, Kansas, and the couthern states. The eastern states nave high yields.

The barley crop averages 23.4 bushels per acre, and the product will come nearly up to 60,000,000 bushels.

The bigh temperature of September and absence of frost have improved corn crop prospects, and make the expectation 22 bushels per acre, and tender certain a crop of at least 1,650,000,000 bushels.

THE MARKETS.

Stocks Recover From Severe Depression and Close Firm. NEW YORK, Oct. 11.-Pacific Mail was sold heavily to day, and the persistent hammering of this stock finally affected the entire list. The talk of an opposition line by the Canadian Pacific has shaken out many weak holders, who have been waiting for a settlement of the Transcontinental difficulties. A report was started that the labor troubles had extended to the Erie, and the lack of confidence in the favorable labor troubles had extended to the Erie, and the lack of confidence in the favorable outcome of the conference of railroad officials at Chicago, together with the disappointing reports of the earnings from that quarter, created a depression in the market. Later in the day it was announced that there was a brighter prospect for an agreement at the Chicago conference, and the market responded quickly. New England was the strongest stock on the list today, reports of an excursion over the road by certain officers helping the rise. Reading and Western Union were both extramely active, although there was nothing of a nature to affect values in etther of them.

There was more activity among the grangers, but they were heavy throughout. The general decline continued, with a comparatively quiet trading until the last hour, when the entire list railied and the market closed firm at Irregular changes as compared with Saturday evening.

Superintendent Miles's Report. Superintendent Miles will to-day send in his annual report to the commissioners. He recmmends the expenditure of \$150,000 for layommends the expenditure of \$150,000 for laying the fire and police telegraph wires underground. Accompanying the report is a plan showing the distribution of the underground cables. These cables are so piaced that connecting loops can be made, thus enabling the system to be distributed all over the city. Mr. Miles also recommends the use of telegraph printing machines in the police stations. These instruments, he betteres, surpaiss the telephone for accuracy and secreey. The report is interesting, especially upon the subject of laying underground cables.

Sanitary Officer D. H. Teeple, in his report Major of Police B. H. Walker, states that to Major of Police S. H. "BLIND TOM" IS AN IDIOT.

His Mother's Petition Denied by the New York Supreme Court for Want

of Jurisdiction. New York, Oct. 11 .- Judge Donohue, of the supreme court, has denied the application of Mrs. Charity Wiggins, the mother of Thomas Wiggins, known as "Blind Tom," the wonderful planist, to have his mental condition inquired into by a committee and his estate cared for. have his mental condition inquired into by a committee and his estate cared for. Tom's father's name was Mingo; he is dead, Both father and mother were Georgia slaves. Tom was born in that state in 1849. When he was 4 years old the whole family were sold as slaves to James W. Bethune, with whom they remained until the war. Under an agreement Tom was placed in control of Bethune for five years, until May, 1870, when he would be of age. This was approved by S. F. Bayne, superintendent of freedmen at Angusta, Ga. Without the parents' consent Bethune took Tom out of the state, and put him on exhibition as a planist. In 1876 Tom became a citizen of New York. While on exhibition in Virginia Tom was declared a lunatic, and Mr. Bethune's son, John C. Bethune, was declared a committee of his person. The latter acted as Tom's manager till 1854, when he died. The eller Bethune was then appointed. In the meantime Mrs. Wiggins removed to this city. She brought suit against Bethune for the services of her son and an accounting of the profits of the exhibition since 1835. The suit is pending at Alexandria, Va. That old lady has twelve children, the oldest 60 years old, and the youngest 28, all born in slavery, therefore not born in lawful wedlock. Tom has no belra. His mother is next of kin, unless the court decide the other children as relations. Hence the application to Judge Donohue. Affladavits state that Tom, though possessed of wonderful musical ability, is an idiot. An application was denied on the ground that proceedings anould be instituted in the state where the committee was first appointed.

THE WOMEN'S TRIBUTE To the Memory of the Late Chief Jus-

tice Chase. A meeting of the women lawyers and clerks of the departments in this city was held last night at the residence of Mrs. Belya A. Lockwood, 619 F street northwest. Mrs. M. D. Lincoin was called to preside and Mrs. M. L. S. Burke chosen secretary. Mrs. Lockwood explained the object of the meeting. On motion Mrs. Belva A. Lockwood, Mrs. Bryant, Miss Davidson, and Mrs. Holton were appointed a committee to draft resolutions expressive of the sense of the meeting. The c. mmittee retired and afte a short absence returned and reported the following:

retired and after a short absence returned and reported the following:

Whereasthe remains of the late Chief Justice of the United States. Saimon Portland Chase, are about to be removed from the District of Columbia, the seene of so much of his public labors and private benefactions, to their final resting place in the state of chilo; and Whereas during the whole of his public career, both as stateman and jurist, his efforts, his arguments, his rulings were always on the side of the largest liberty to the individual, on the side of bumbarity, using as his great argument in the sectional struggle that convulsed the United States the maxim, "Slavery is sectional, freedom is national," and ignoring for the sake of a more exalled principle the old Whilg party, to whom he had been so long allied, and in his zeal for humanity finally becoming the leader of the liberal party of this country, and was largely instrumental in preventing the introduction of slavery into the then new terriories of California, New Mexico, Kansas, and Nebraska, and which eventually resulted in the repeal of the Missouri compromise and the compromise acts of 1859, and.

Whereas, as governor of the state of Ohio, a prominant candidate for the presidency, and later a United. States, sensior from Ohio, his voice was always for freedom, for justice, and for union; and

prominent candidate for the pred tenery, and later a United States sensor from Ohio, his voice was always for freedom, for justice, and for union; and

Wiereas, when made Secretary of the Treasury by Fresident Lincolu, he was instrumental in introducing into this country in national banking system and abotishing the state banks, thus establishing the credit of the country at a time when the nation's life was threatened and a hopeless financial disaster aimost inevitable; and

Whereas, apparently under a great military necessity, but really from his supremessance of justice and right, he inaugurated the holding of public offices by the women of the country, by appointing them clerks in the Treasury Bepartment; and as a result of which we have to-day from 4,000 to 10,000 women officeholders in this country—6,000 women clerks in the District of Columbia alone, who are enabled to earn an honest livelihood by cierical work; and which he himself coupled with that immorial decision 200 his from the United States Supreme bench—that no cartily compact could legalise the right of man to hold property in man, as the law tivelf authorizing it was superseded by the higher law of God, thus handing down a precedent for the jurishs of nucceeding ages to follow—after having previously given to President Lincoln the strength of his moral support to declare 4,000,000 of sinves, of men and women, free; be if the hone of his adoption, the state marter of the privilege of owning themselves.

\*\*Recolved\*\*, That we hold in highest esteem and revience the memory of this departed jurist, not only for the blessings and privileges that he has conferred upon the women of this moral support to declare 1,000,000 of sinves, of men and women. The privilege of owning themselves.

\*\*Recolved\*\*, That we hold in highest esteem and revience the memory of this departed jurist, not only for the blessings and privilege in the home of his adoption, the state who loved and honored him so well.

after which they were unanimously adopted. The Children Born in the White House. Entron National Reputations: In your col-mus of Saturday at you were led into a dunder, in point of fact, in stating that Mr.

blunder, in point of fact, in stating that Mr. Hall T. Walker, the son of Mr. J. Knox Walker, rivate secretary to President Polk, was the "first and only child born in the while house." There were several children bora in the while house before Mr. Polk was President, and one since then. Unless I mistake, a daughter of Maj. Bonelson, the private secretary to President Jackson, was born in the while house, and the only living son of President Tyler's cidest daughter, and the oldest living daughter of his cidest son, were both born in the white house, and surely it has not been forgotten that the first child of Col. Grant was born in the white house while his father was President. I merely desire to correct the mistake into which you have been unconsciously ted, and remain, very respectfully yours.

DISPUTE BETWEEN PARTNERS One Claims an Interest the Right to

Which is Denied by the Other. In the court in general term yesterday the equity cause of Hallet Klibourn against James M. Latts was taken up for hearing Col. Enoch Totten and Mr. William F Mattingly appearing for the complainant and Mr. Walter D. Davidge for the defeud-

Mattingly appearing for the complainant, and Mr. Walter D. Davidge for the defendant. The bill alleges that in the year 1866 the complainant and defendant were copartners in the business of real estate agents and brokers, and the purchase and sale of real estate in this District; and that in January, 1871, John F. Olmstead was admitted as a co-partner. It was stipulated by the partnership agreement that all profits resulting from operations in real estate should belong to the firm; and that all information obtained by any member of the firm touching the purchase or sale of real estate should be communicated to the firm; and that no member of the firm should engage in the business of buying and selling real estate in this District on his own account or with any other person, excepting in cases where the proposed action had been explained to the firm and it had decilined to take any part therein. The bill charges that in violation of the partnership agreement, Mr. Latta and John Stearns during the continuance of the partnership bought and sold real estate without the knowledge of Mr. Kilbourn, and from these purchases large profits accured, and that the interest of Mr. Latta therein belonged to the firm. It is further charged that about Oct. 1, 1872, the firm in consideration of services rendered Paulus Thyson, and in accordance with a private agreement between the parties, the firm was entitled to receive from Thyson lots 31, 33, and 36 in square No. 445, and that Mr. Latta fraudulently obtained from Thyson the conveyance of the lots 15 and 35 to W. L. Hemis, the defendant's sen-in-law, and subsequently were conveyed to Mr. Latta, as also was lot 34.

Mr. Latta in naswering denies that any partnership ever existed between either Messra. Kilbourn and Olmstead and himself for the purphese of carrying on the business of the purchase and sale of real estate, but alleges that the highest of the firm.

partnership ever existed between either Messra. Kilbourn and Oimstead and himself for the purpose of carrying on the business of the purchase and sale of real estate, but alleges that the business of the firm was that of real estate and note brokers, and emphatically denies the alleged atipulation in the partnership agreement. He avers that the firm never had any capital, nor was there any provision by which the firm could have capital for the purchase and sale of real estate. He admits that the members of the firm, from time to time, did make purchases and sales of real estate, but avers that they were the result of special agreement. He admits operating in real estate with John Stearns, and denies Mr. Kilbourn's right to participate in the profits. He denies that the services of the firm entered into consideration in respect of the conveyances made by Thyson, and says that Mr. Kilbourn had notice of the transfer within a month after being made. The issues presented for adjudication are whether the purchases and sales of real estate by Latin and Stearns were within the scope of the partnership business and stipulations; and, if so, whether the complainant had notice of them. Second, whether the conveyances by Thyson were in consideration of the services of the firm, and fraudulently procured to be made by the defendant, as alleged in the bill.
